Thanks very much for the update, Ryan.

I will reach out again if we receive any additional reports of this same issue or other significant problems.

Best,

Julie

Julie,

Floyd County did have some issues related to their poll workers cards. They have worked that out and everything seems to be good now. They have received a court order extending their polling hours until 9:00. The other issues that we have

heard about in other counties have been minor and able to be resolved quickly. Thank you for the update. Please let us know if you are hearing anything else.

Thanks,
Ryan

Good afternoon Mr. Germany and Mr. Harvey,

As you know, the Lawyers' Committee convenes the national Election Protection coalition which is a nonpartisan program that assists voters who have questions or face problems at the polls on Election Day.

I am writing to notify you that the Election Protection 866-Our-Vote hotline has received calls today about voting machine/poll pad issues in Floyd, Chatham, Fulton and Gwinnett Counties. Some of the reports indicate a problem with "decoders" that are preventing the printing of ballot access cards or other machine related issues.

It is unclear whether emergency paper ballots have been issued. When a volunteer called the elections office in Floyd County to report the problem, they were told the county was having trouble printing the emergency ballots because of an "alignment" issue with the printer. It is unclear whether the impacted polls in Floyd County had any emergency ballots on hand to issue to voters there due to the machine issues.

We would appreciate it if you would kindly let us know what the progress is on the resolution of the issues in Floyd, Chatham, Fulton and Gwinnett Counties so that we can provide voters with up to date information about when the issues have been resolved, will be resolved and the availability of emergency ballots.

Thank you for your attention in this matter.
